## System Usage Procedures

## Our Value Creation

**Streamline the process of getting your agreement managed, signed and stamped.**

MyAgreement platform is ready with agreement templates for you to start out with but you can make changes according to your requirement including adding or modifying templates for different services that you offer.

Our solution platform can provide many benefits to all parties. We ensure that everyone will get to experience our innovative solution while enjoying important deliverables that will change the way agreement processes are being handled.

### It's Simple:

Submit your template and we will develop it in the platform.

### You can then:

Receive your ID and password to access the platform. Enjoy the smooth process of managing your agreement, perform digital signing and get it stamped online.

### What else?

Your agreement is now legally binding. You can also check out the system to track your progress or monitor the activities under your account.
